

What can I say about Tamir...only positive things!

An excellent teacher, professional,
Knowledgeable, always patient, full of good
suggestions and ideas, enthusiastic, and ready to
help with whatever issues arise.

Since a computer is like a living growing thing,
there is always something new to learn as well as
problems to solve.

It has been a pleasure and a delight discovering
the computer and some of the exciting programs
these many years with Tamir!
